

# Simple ResNet18

## Functional Model Graphs

Gobind Puniani  
MATH 198: Spring 2020  
04/16/20

# Method

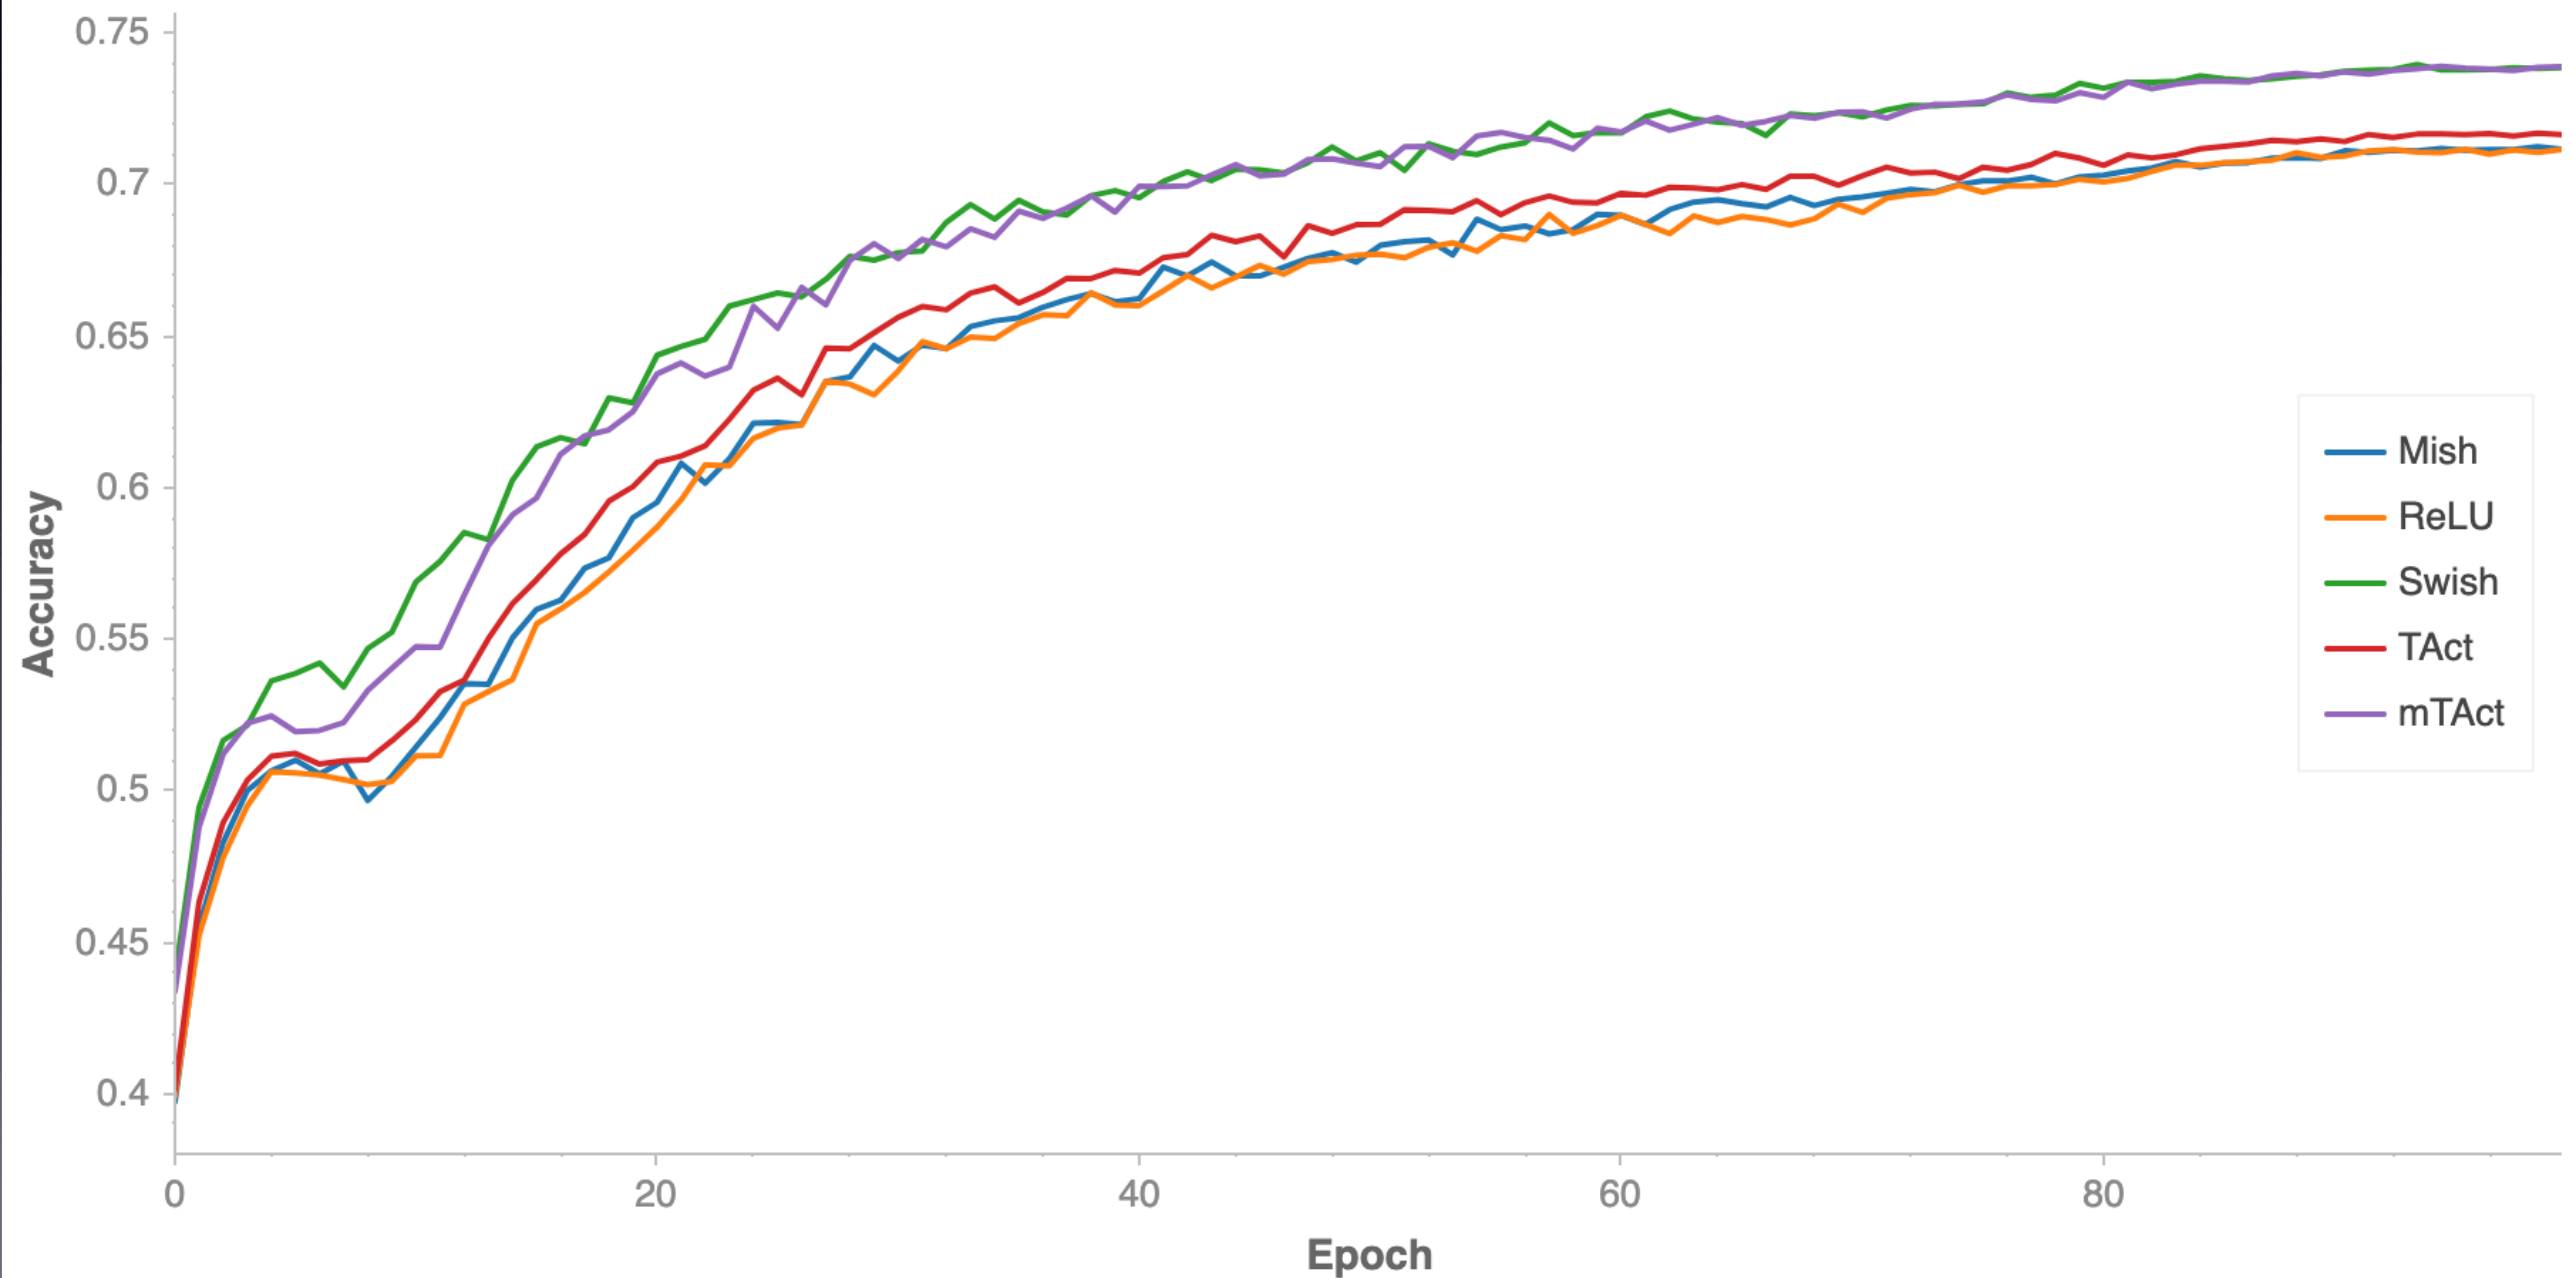

- Simple ResNet 18 model only with ResNet module modified
- Functional model from two weeks ago
- 5 activation functions: ReLU, Swish, Mish, TAct, and mTAct
- 3 runs for each activation function
- 100 epochs per run

# Epochs on a Linear Scale

## Simple ResNet18 Model Results

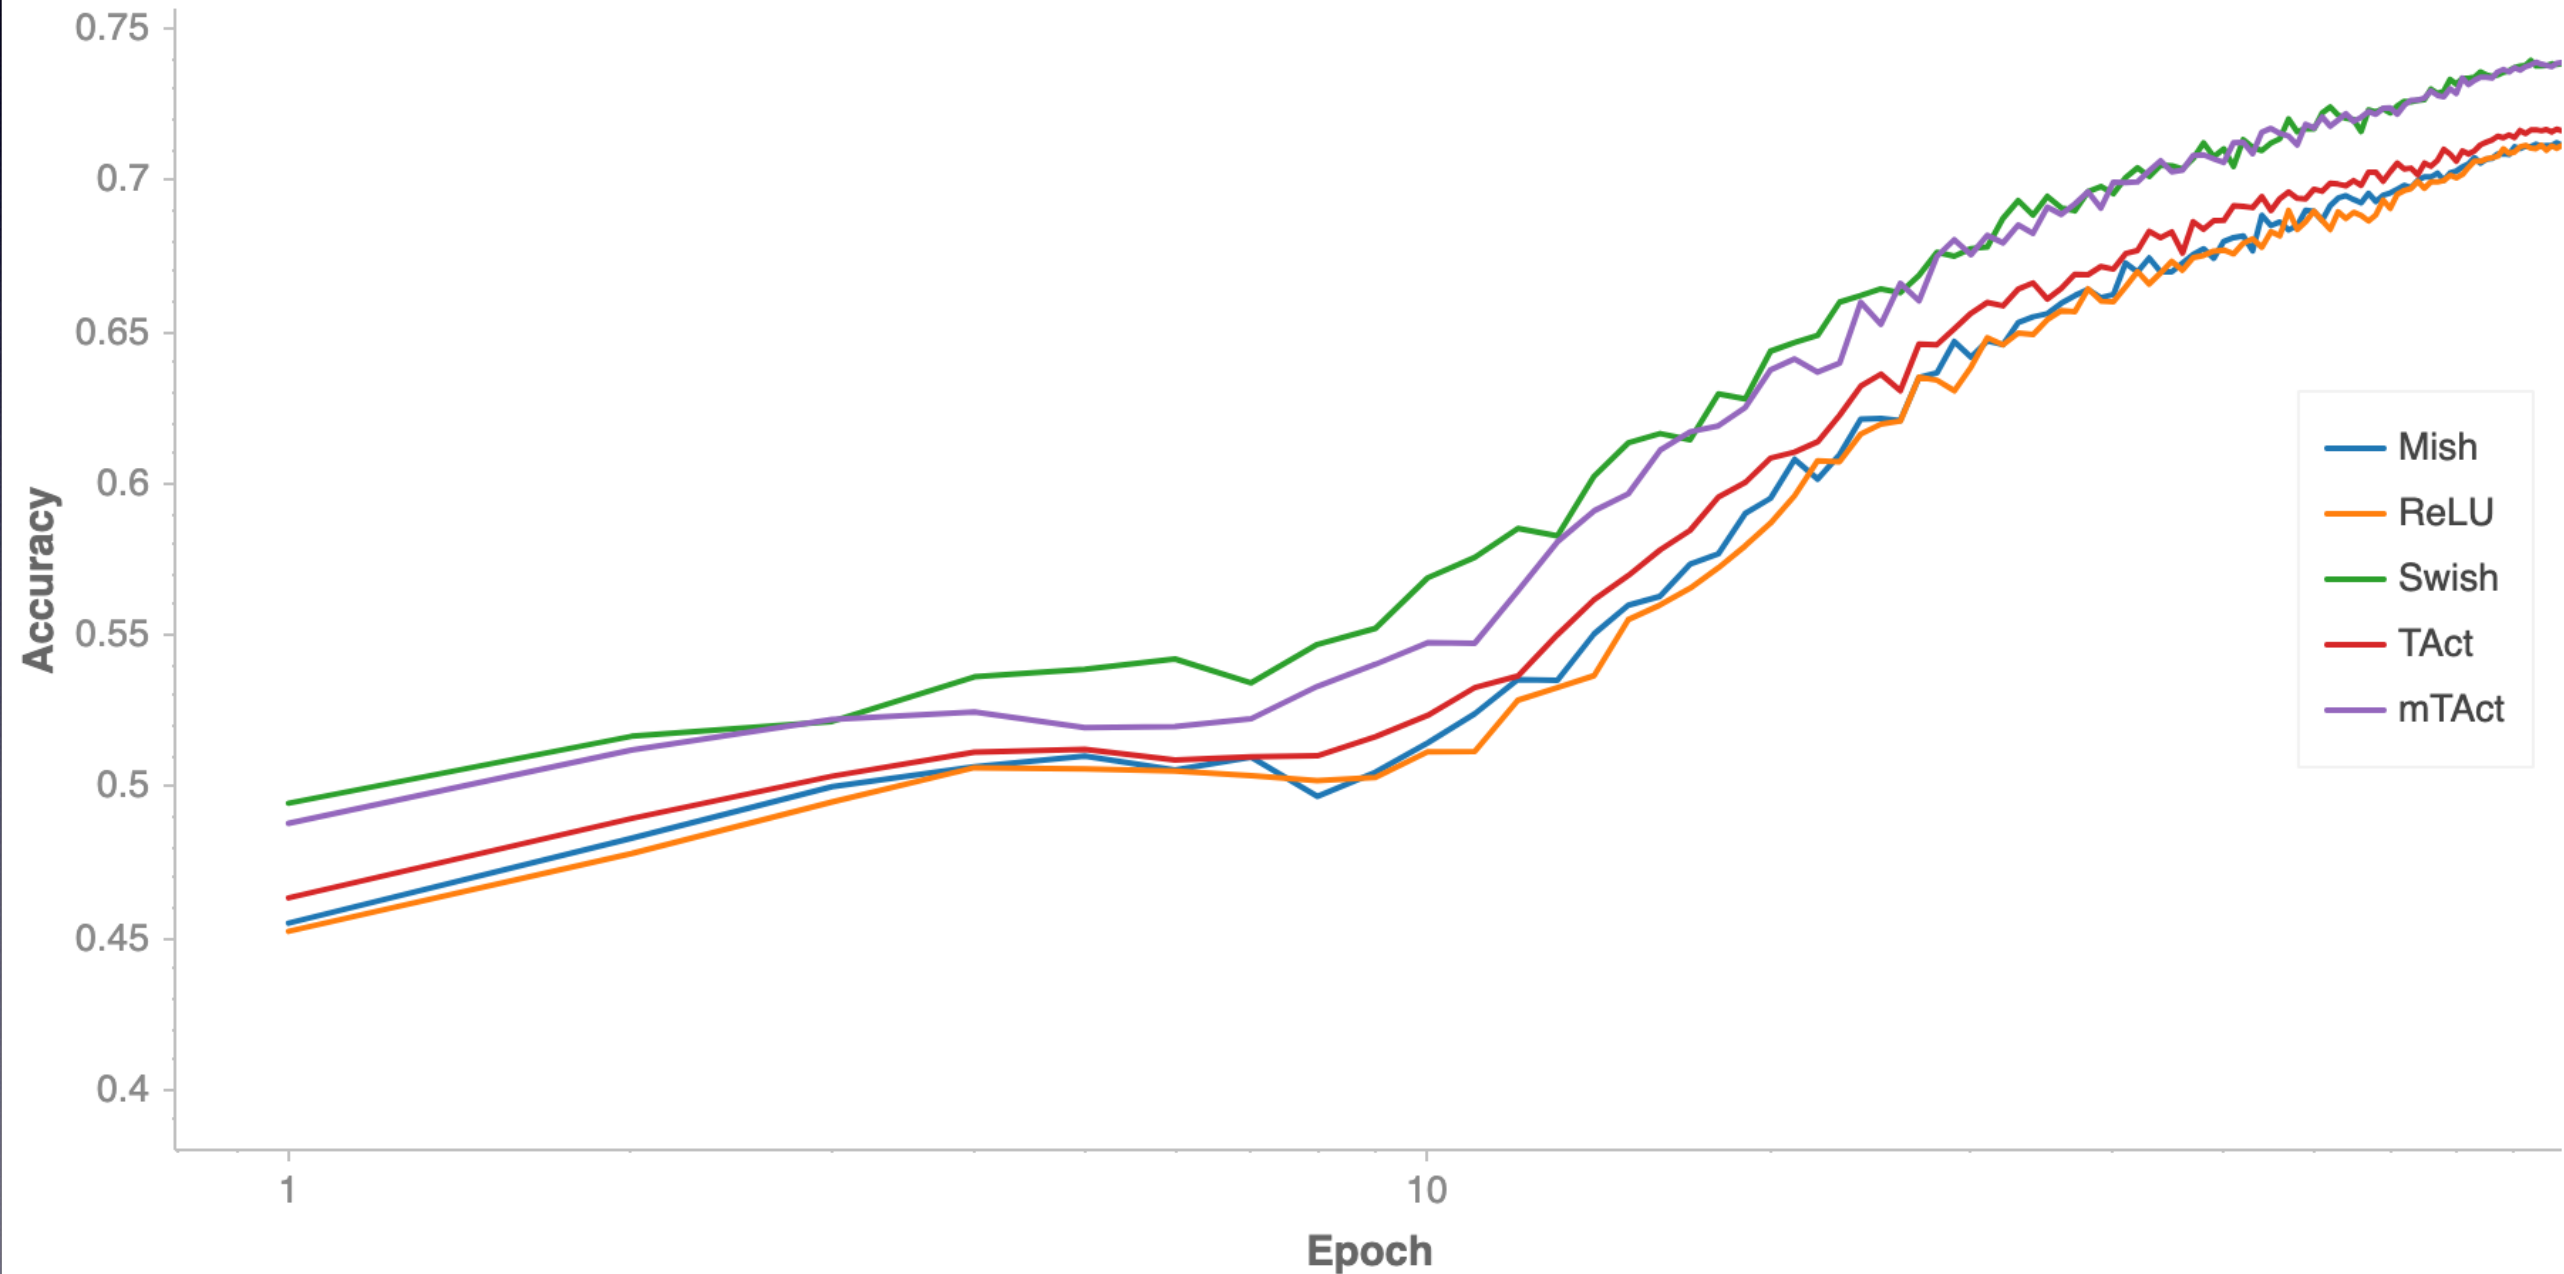

Mean value at each epoch

# Epochs on a Logarithmic Scale

## Simple ResNet18 Model Results

Mean value at each epoch

# Conclusion

- mTAct and Swish performed the best overall on average
- Swish beat mTAct on lower epochs
- Other 3 performed comparably throughout 100 epochs
